

ADD LIGHTING

SQUARE LED DOWNLIGHT SERIES

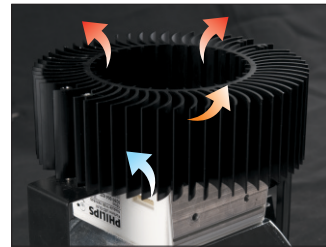

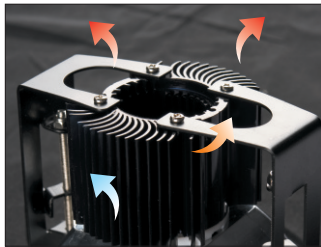

DARK LIGHT (PLASTIC REFLECTOR), SQUARE LED Reflector is made from one piece injection moulded Polycarb with full specular 99.98% Reflectance Value Vacuum Metallised finish. The design minimizes glare to maximize visual comfort together with maximum light output.

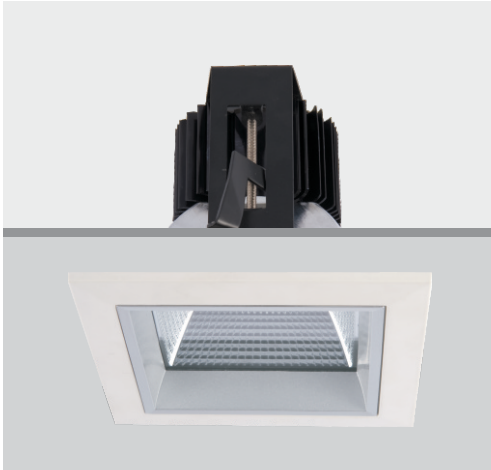

Mounting spring system with integrated clip on the fixture enables secure, one-touch installation, eliminating the need for tightening screws. This system requires no additional parts which eliminated the worry of losing anchors or clips.

Outstanding cooling system offers a high degree of safety and reliability

The high performance heat sink system dissipates internal heat while minimizing light leak to prevent the lamp and fixture derogating. Therefore when operating temperature heat has been minimized, the lamp sources are guaranteed for a maximum lifetime. The design also prevents the accumulation of dirt around the frame due to convection currents caused by rising hot air.

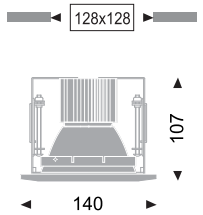

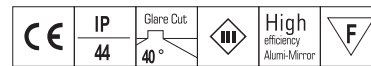

PHILIPS SLM 2000Lm MAX

Trim : Die-cast aluminium
Body : Die-cast aluminium
Housing : 1.2mm Steel-matt black paint
Safety Glass : Clear tempered glass
Reflector : 99.98%pure anodised aluminium
Weight: 0.4 kg
Applicable driver sold separately.

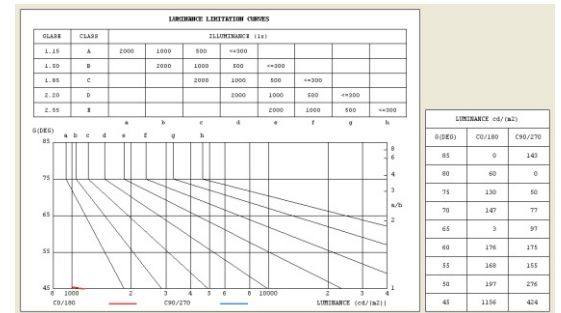

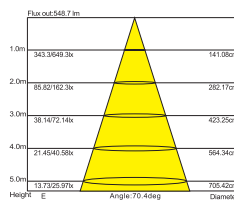

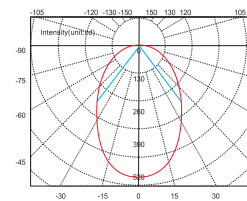

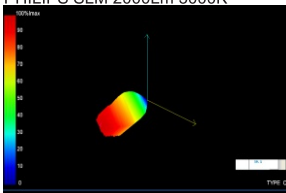

PHILIPS

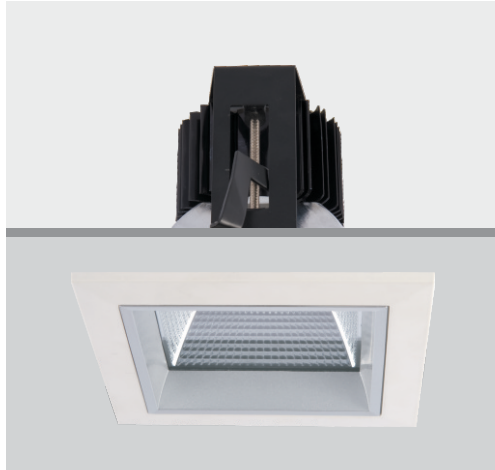

SL1410CG-W White
SL1410CG-B Black
SL1410CG-S Silver

PHILIPS SLM 2000Lm 3000K

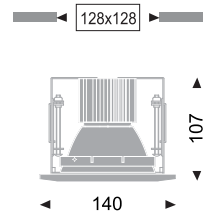

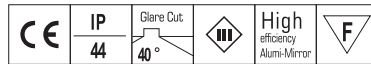

COB LED

Trim : Die-cast aluminium
Body : Die-cast aluminium
Housing : 1.2mm Steel-matt black paint
Safety Cover: Clear tempered glass
Reflector : 99.98%pure metalied aluminium
Weight: 0.4 kg
Applicable driver sold separately.
